

March 2017

Please distribute this newsletter, which contains claims, billing, Medical Policy, reimbursement, and other important information, to all health care providers, administrative staff, and billing departments/entities that this email address represents.

You can find *Blue Review* [online!](#)

Ideas for articles and letters to the editor are welcome;
email NM_Blue_Review_Editor@bcbsnm.com

Do we have your correct information?

Maintaining up-to-date contact and practice information helps to ensure that you are receiving critical communications and efficient reimbursement processes. Additionally, the Centers for Medicare & Medicaid Services require Blue Cross and Blue Shield of New Mexico (BCBSNM) to make sure that our online Provider Finder[®] and provider directory are kept current with our provider demographic information. Please complete our quick and easy [online form](#) if you have:

- Moved to another location
- Left a group practice
- Changed your phone number
- Changed your email address
- Retired
- Any other changes to your practice information

Medical Policy Updates

Approved new or revised Medical Policies and their effective dates are usually posted on our website the first and fifteenth of each month. These policies may impact your reimbursement and your patients' benefits. On our website, you may view active, pending and updated policies and/or view draft policies and provide comments. The policies are located under the [Standards & Requirements tab](#) at bcbsnm.com/provider.

Office Staff

Claims inquiries? Call the Provider Service Unit (PSU) at 888-349-3706

Our PSU handles all provider inquiries about claims status, eligibility, benefits, and claims processing for BCBSNM members. *For out-of-area claims inquiries, please call the BCBSNM BlueCard PSU at 800-222-7992.*

ClaimsXten™ Quarterly Updates

New and revised Current Procedural Terminology (CPT®) and Healthcare Common Procedure Coding System (HCPCS) codes are periodically added to or deleted from the ClaimsXten code auditing tool software by the software vendor on a quarterly basis and are not considered changes to the software version. [Read more](#)

How are You Diagnosing Hypertension?

“High blood pressure is a prevalent condition, affecting approximately 30% of the adult population. It is the most commonly diagnosed condition at outpatient office visits. High blood pressure is a major contributing risk factor to heart failure, heart attack, stroke, and chronic kidney disease. In 2010, it was the primary or contributing cause of death for more than 362,000 Americans.” [Read more](#)

Availity™ Claim Research Tool Offers Enhanced Status Results

Using an electronic route, such as the Availity Claim Research Tool (CRT), is the most convenient, efficient and secure method of requesting detailed claim status. The Availity CRT now returns more detailed information than ever before! [Read more](#)

Talking with Health Services Staff

BCBSNM Health Services staff members are available to receive incoming calls, make outbound calls, and discuss care management issues with members and providers Monday through Friday, 8 a.m. to 5 p.m. (MT). After these hours, callers can leave a message and receive a call back the next business day.

- For Commercial members, call **800-325-8334**
- For Medicaid members, call **877-232-5518**
- For Medicare members, call **877-774-8592**

A Medical Director is available to address care management requests with providers at **505-816-2957**.

When calling your office, Health Services staff members identify themselves as BCBSNM employees and give their names and titles. TTY/TDD and language translation services are available for callers who may need assistance.

Utilization Management Determinations

Utilization management (UM) determinations are made by licensed clinical personnel based on

the benefit policy (coverage) of a member's health plan, evidence-based medical policies, and the medical necessity of care and service. BCBSNM does not provide any reward or incentive to employees, providers, or other individuals for decisions that result in determinations that services are not covered; nor do we reward providers for underutilization of services.

If you have questions about criteria for UM decisions and official medical policy, or if you wish to discuss a UM coverage determination, you may contact a Medical Director at **505-816-2092**. All medical policies are available for review online in the [Standards & Requirements](#) section of our website.

Kicking the Habit: Helping to Overcome Opioid Addiction in America

More Americans are getting caught in a growing web of addiction to opioids – powerful narcotics that relieve pain – than ever before. Read about one member's journey to learn what we are doing to help members avoid becoming victims.

America is seemingly beset by an epidemic of people becoming addicted to opioids – powerful narcotics that were designed to ease pain. In 2014, more than 28,600 died from such overdoses. In fact, six out of 10 overdoses involve prescription opioids.

In our [Connect community](#), we are running a three-part series on how BCBSNM is helping members who may be struggling with opioid abuse. The [first article](#) chronicles the journey of a member who slipped into addiction and is fighting to recover. The [second article](#) is a Q&A about our unique program to identify addiction and help members. It's followed by a [third article](#) that discusses the differences between acute and chronic pain and how to talk to your doctor when asking for relief.

Receipt of Credentialing Application Notification

Providers interested in becoming a contracted provider with BCBSNM must complete the applicable BCBSNM Participating Provider Interest Form and CAQH Credentialing Application. Upon submission, BCBSNM will notify applicants by certified mail within 10 days of receipt that the credentialing request has been received and that:

- If the application is found to be complete, the credentialing process will begin according to the 45-day time period set forth in Subsection C of 13.10.28.11 NMAC.
- If the application is found to be incomplete, the 45-day credentialing process **DOES NOT** commence until all requested information has been provided and application deemed complete by BCBSNM.

Additionally, providers can obtain the current status of their credentialing application by contacting the Provider Relations Representative assigned to the region.

A full list of Provider Relations Representatives is available in the [Network Contact List](#) under the Contact Us section of the BCBSNM provider website, bcbsnm.com/provider.

Medicaid only

Blue Cross Community CentennialSM (Medicaid)

Not yet contracted?

BCBSNM's Medicaid plan is Blue Cross Community Centennial.

Providers who are participating in commercial BCBSNM products are not automatically participating providers in Blue Cross Community Centennial. To become a Blue Cross Community Centennial provider, you **must** sign a Medicaid amendment to your Medical Services Entity Agreement (MSEA).

If you have any questions, please call 505-837-8800 or 1-800-567-8540 if you are interested in becoming a Blue Cross Community Centennial provider.

Reminder: Update your Enrollment Information

Due to Centennial Care requirements, all enrollment information (changes to demographics, licensure or certification, provider status, etc.) must be updated on the [NM Medicaid Provider Web Portal](#).

Billing Medicaid Members

Appointment, interest and carrying charges: MAD does not cover penalties on payments for broken or missed appointments, costs of waiting time, or interest or carrying charges on accounts. A provider may not bill an MAP-eligible recipient or his or her authorized representative for these charges or the penalties associated with missed or broken appointments or failure to produce eligibility cards, with the exception of MAP recipient eligibility categories of CHIP or WDI who may be charged up to \$5 for a missed appointment.

Member Rights and Responsibilities

BCBSNM is committed to ensuring that enrolled members are treated in a manner that respects their rights as individuals entitled to receive health care services. BCBSNM is committed to cultural, linguistic and ethnic needs of our members. BCBSNM policies help address the issues of members participating in decision-making regarding their treatment; confidentiality of information; treatment of members with dignity, courtesy and a respect for privacy; and members' responsibilities in the practitioner-patient relationship and the health care delivery process. ClaimsXten™ Quarterly Updates

New and revised Current Procedural Terminology (CPT®) and Healthcare Common Procedure Coding System (HCPCS) codes are periodically added to or deleted from the ClaimsXten code auditing tool software by the software vendor on a quarterly basis and are not considered changes to the software version.

Blue Cross and Blue Shield of New Mexico (BCBSNM) will normally load this additional data to the BCBSNM claim processing system within 60 to 90 days after receipt from the software vendor and will confirm the effective date via the [News and Updates](#) section of the BCBSNM Provider website. Advance notification of updates to the ClaimsXten software version (i.e., change from ClaimsXten version 4.1 to 4.4) also will be posted on the BCBSNM Provider website.

To help determine how coding combinations on a particular claim may be evaluated during the claim adjudication process, you may continue to utilize Clear Claim Connection™ (C3). C3 is a free, online reference tool that mirrors the logic behind BCBSNM's code-auditing software. Refer to our website at bcbsnm.com/provider for additional information on gaining access to C3.

For more details regarding ClaimsXten, refer to the [C3 page](#). Additional information may also be included in upcoming issues of the *Blue Review*.

Checks of eligibility and/or benefit information are not a guarantee of payment. Benefits will be determined once a claim is received and will be based upon, among other things, the member's eligibility and the terms of the member's certificate of coverage applicable on the date services were rendered.

ClaimsXten and Clear Claim Connection are trademarks of McKesson Information Solutions, Inc., an independent third party vendor that is solely responsible for its products and services.

How are You Diagnosing Hypertension?

“High blood pressure is a prevalent condition, affecting approximately 30% of the adult population. It is the most commonly diagnosed condition at outpatient office visits. High blood pressure is a major contributing risk factor to heart failure, heart attack, stroke, and chronic kidney disease. In 2010, it was the primary or contributing cause of death for more than 362,000 Americans.”¹

Did you know???

- About 80 million Americans – one out of every three adults over age 20 – have high blood pressure (nearly 20 percent don't even know that they have it).²
- About three out of four people who have a stroke for the first time have high blood pressure.³

- For every 20-mmHg increase in SBP beginning at 115 mmHg, or 10-mmHg increase in DBP beginning at 75 mmHg, mortality from ischemic heart disease and stroke are **doubled**.⁴

The U.S. Preventive Services Task Force (USPSTF) found good evidence that screening for and treatment of high blood pressure in adults substantially reduces the incidence of cardiovascular events. The USPSTF recommends:

- Screening for high blood pressure in adults aged 18 years or older.
- Obtaining measurements outside of the clinical setting for diagnostic confirmation before starting treatment.

In addition to office blood pressure measurements, Ambulatory Blood Pressure Monitoring (ABPM) and Home Blood Pressure Monitoring (HBPM), may be used to confirm a diagnosis of hypertension after initial screening.⁵

“USPSTF found convincing evidence that ABPM is the best method for diagnosing hypertension. Although the criteria for establishing hypertension varied across studies, there was significant discordance between the office diagnosis of hypertension and 12- and 24-hour average blood pressures using ABPM, with significantly fewer patients requiring treatment based on ABPM. Elevated ambulatory systolic blood pressure was consistently and significantly associated with increased risk for fatal and nonfatal stroke and cardiovascular events, independent of office blood pressure. For these reasons, the USPSTF recommends ABPM as the reference standard for confirming the diagnosis of hypertension.”⁶

Ambulatory blood pressuring monitoring may be covered at no member cost share for non-grandfathered plans and when using a network provider. Encourage patients to contact their Blue Cross and Blue Shield of New Mexico (BCBSNM) customer service advocates, using the phone number on the back of their ID cards, to discuss benefits and coverage.

Availity™ Claim Research Tool Offers Enhanced Status Results

Using an electronic route, such as the Availity Claim Research Tool (CRT), is the most convenient, efficient and secure method of requesting detailed claim status. The Availity Claim Research Tool (CRT) now returns more detailed information than ever before!

The CRT allows registered Availity users to search for claims by Member ID, Group Number and Date of Service, or by National Provider Identifier (NPI) and specific claim number, also known as a Document Control Number (DCN). The CRT enables users to check the status of multiple claims in one view to obtain real-time claim status, with easy-to-read denial descriptions.

The CRT Search Results page now delivers the Rendering Provider ID and Name submitted on the claim. Additionally, the claim status Service Line break-down returns:

- Diagnosis Code
- Copay
- Coinsurance
- Deductible
- Modifier
- Unit or Time or Mile

This necessary information is available within a few clicks, lessening the need to speak with a Customer Advocate. For additional information, refer to the [CRT tip sheet](#) in the Education and Reference Center/Provider Tools section of our website at bcbsnm.com/provider. As a reminder, you must be registered with Availity to utilize the CRT. For registration information, visit availity.com, or contact Availity Client Services at 800-282-4548.

Join us for a webinar! BCBSNM hosts complimentary Back to Basics: 'Availity 101' Webinars for providers to learn how to use the CRT and other electronic tools to the fullest potential. You do not need to be an existing Availity user to attend a webinar. To register online now for an upcoming webinar, visit the [Provider Training page](#) in the Education and Reference Center section of our Provider website.

Availity is a trademark of Availity, LLC, a separate company that operates a health information network to provide electronic information exchange services to medical professionals. Availity provides administrative services to BCBSNM. BCBSNM makes no endorsement, representations or warranties regarding any products or services offered by third party vendors such as Availity.
