

## Pharmacy Program Updates: Quarterly Pharmacy Changes Effective July 1, 2019

### **DRUG LIST CHANGES**

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some additions, revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) will be made to the Blue Cross and Blue Shield of New Mexico (BCBSNM) drug lists. Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes. Changes effective July 1, 2019 are outlined below.

## **UTILIZATION MANAGEMENT PROGRAM CHANGES**

- **Effective July 1, 2019**, the following changes will be applied:
  - The Ophthalmic Prostaglandins Step Therapy (ST) program will change its name to: Glaucoma. The program, which applies to the Basic and Enhanced drug lists only, includes the same targeted medications and two new ones, Rhopressa and Rocklatan. The program criteria remains the same.
  - Several drug categories and/or targeted medications will be added to current Prior Authorization (PA) and Step Therapy (ST) programs for standard pharmacy benefit plans. As a *reminder*, please review your patient's drug list for the indicator listed in the Prior Authorization or Step Therapy column, as not all programs may apply. Additionally, please be sure to submit the specific prior authorization form the medication being prescribed to your patient.

Per our usual process of member notification prior to implementation, targeted mailings were sent to members affected by drug list revisions and/or exclusions, dispensing limit and prior authorization program changes. For the most up-to-date drug list and list of drug dispensing limits, visit the Pharmacy Program section of our Provider website.

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card. Members may also visit [bcbsnm.com](http://bcbsnm.com) and log in to Blue Access for Members<sup>SM</sup> (BAM<sup>SM</sup>) or [MyPrime.com](http://MyPrime.com) for a variety of online resources.

### **Select Prescription Drug Lists' Update Frequency Changed April 1, 2019**

[As a reminder](#), most of the prescription drug lists that were once updated annually on Jan. 1, or plan renewal date, are moving to a quarterly update. For patients on these affected drug lists, the frequency change is being implemented upon the patient's health insurance plan renewal/effective date starting on or after April 1, 2019.

This update frequency change includes the following drug lists:

- Enhanced, Multi-Tier Basic and Multi-Tier Enhanced
- **Note:** For those drug lists that remain on an annual update, or until a plan has moved to a quarterly update (where applicable), the drug list name has been changed to include "Annual" in the title. Both the quarterly updated and annually updated drug lists are posted on the Pharmacy Program section of our Provider website.

### **Member Cost-Share Updates to Novolog Insulin Products**

Recent news headlines have focused on the rising insulin drug prices and the affect it can have on patient access to these medications. Starting July 1, 2019, BCBSNM members, who have prescription drug benefits administered by Prime Therapeutics, may see reduced cost shares for Novolog vials and Novolog Flexpen insulin products.\* Only members with a coinsurance or high deductible health plan, based on the member's benefit plan, may see this cost share reduction. Those members with a copay benefit will not see any changes in their cost-share amounts.

Members will pay the same or less for the preferred Novolog products than the Insulin Lispro (Humalog) products that were recently introduced to the market by Eli Lilly. These Insulin Lispro (Humalog) products are non-preferred or excluded on our drug lists, based on the member's benefit plan.

Please call the number on the member's ID card to verify coverage.

\*This change does not apply to members with Medicare Part D or Medicaid coverage and select employer group health plans.

Prime Therapeutics LLC is a pharmacy benefit management company. BCBSNM contracts with Prime to provide pharmacy benefit management and related other services. BCBSNM, as well as several independent Blue Cross and Blue Shield Plans, has an ownership interest in Prime. MyPrime.com is an online resource offered by Prime Therapeutics.
